SUMMARY

Versatile software engineer with 2 years of experience building fast, scalable web applications using JavaScript, Typescript (React, Next.js), Go, and Java. Strong focus on front-end and backend development, with additional background in Python for data science. Comfortable working across the stack with REST APIs, microservices, and clean, maintainable code. Eager to contribute to high-impact, user-facing software in collaborative environments.

EDUCATIONS

CHIANGMAI UNIVERSITY

Chiangmai, Thailand

Bachelor of Engineering

Major: Information Systems and Network Engineering (International Program)

Work Experience

FireExit Cooperation

Chiangmai, Thailand

Software Developer, Frontend

October 2024 – Present

- Developed and maintained responsive front-end interfaces for e-commerce, booking, and IoT-based platforms using React and Next.js.
- Optimized UI/UX for mobile and desktop devices, ensuring high performance and accessibility.
- Collaborated with cross-functional teams to integrate RESTful APIs and align designs with technical requirements.
- Delivered scalable solutions under tight deadlines in an Agile software house setting.

Trinity Roots CO., LTD

Bangkok, Thailand

Software Engineer, Backend

September 2024 – October 2024

- Developed and customized ERP web applications using Python and the Odoo framework to streamline business operations.
- Designed and extended Odoo modules for core functionalities such as sales, inventory, invoicing, and HR.
- Integrated REST APIs and implemented backend logic to support business-specific workflows and data processes.
- Collaborated with product managers and cross-functional teams to deliver scalable and maintainable ERP solutions in an Agile environment.

Ocare Health Hub Co. Ltd

Chiangmai, Thailand

Software Engineer, Frontend

January 2024 – September 2024

- Engineered high-performance, user-friendly web applications improving healthcare workflow efficiency.
- Integrated secure RESTful APIs with backend teams, boosting data accuracy and app responsiveness.
- Translated complex client needs into scalable solutions using React.js and Next.js, enhancing user satisfaction.

SKILLS

- Programming Languages:** JavaScript, TypeScript, Python, Go, Java(Basic)
- Frontend:** React.js, Next.js, Redux, Zustand, Zod, Yup, React Hook Form, TanStack, Axios, TailwindCSS, MUI
- Backend:** Node.js, Express.js, Gin, Fiber, Spring Boot (Basic)
- Machine Learning:** Numpy, Pandas, Scikit-learn, Matplotlib
- Databases:** PostgreSQL, Prisma, MongoDB, Firebase, MySQL
- Architecture:** REST APIs, Microservices, MVC, OOP
- DevOps & Deployment:** GitHub Action, Docker, Railway, Vercel, Linux
- Soft Skills:** Communication, Teamwork, Problem Solving, Critical Thinking, Self-Learning
- Languages:** Thai (Native), English (Upper-Intermediate - B2)

PROJECTS

- Intelligent Parking Space Detection — React-Native, Python (Senior-Project)
- Developed a mobile app using React Native frameworks and utilized OpenCV and YOLOv8 in Python to detect parking spaces. Deployed using Raspberry Pi.
- RentMe — Next.js, Tailwind, Node.js
- Designed and implemented front-end features for a property rental platform.
 - Collaborated on planning system architecture with the CMU engineering team.
- Machine Learning — Python
- Trained a neural network to classify SMS as spam/ham, designed for elderly accessibility.
 - Used regression models to forecast property prices in Chiang Mai.

CERTIFICATIONS

- LinkedIn: Full-Stack Development (2024)
- CISCO: Cloud Security & Cybersecurity Essentials (2023)
- Chiangmai University E-Graduate Score: 78/100
